

It's your special day...

Broadcast your wedding live over the internet with IdoStream.com. Every couple has to go through the painful process of whittling down their guest list simply because you can only accommodate so many guests at the wedding reception. But wouldn't it be great if you could extend an invitation to those guests you have to exclude from the reception?

Or do you simply have a lot of friends or relatives far away that can not make it to the wedding? Our unique service provides the ability for you to broadcast a high quality video stream of your wedding live over the internet to friends and family who may not be able to attend your special event in person.

Commitment to Quality

At I Do Stream we are committed to providing a high quality product and superior service. The technology is only as good as the company behind it. I Do Stream is an Accredited Business of the BBB.

"I DO" STREAM

broadcast your wedding live!

*"No one should ever miss
your special event"*

Tel: 860-681-5414
www.idostream.com

Your wedding should never be missed

It's as easy as 1, 2, 3 ...

1. Have your videographer contact us. We will work with him to set everything up. Or set it up yourself using a camcorder and laptop.
2. Make sure your venue has internet access or WiFi.
3. Your wedding will broadcast live on our streaming server.
4. Share with your family and friends using your unique user name/ password.

State of the Art Technology

Live webcasting is a fast growing trend among couples. For less than the cost of an airline ticket your family and friends can enjoy a high quality broadcast of your wedding from the comfort of their home. Go a step beyond the ordinary wedding video, broadcast live anywhere in the world!

Testimonials

“Everyone got to see our wedding....no matter how far away.”

“It was awesome ... the video quality was superb.”

“A wedding should not be missed. What a great way to include our family out of state.”

“Every couple should webcast their wedding!”

How to get started

Schedule your broadcast– By placing your order or having your videographer contact us.

If you are setting up your broadcast yourself– We will email you easy step by step instructions.

We will email you the live broadcast link– You can forward this directly to your family and friends.

Your live broadcast page will be available two days before the event – This will allow you to do a test broadcast before the event to make sure everything is working.

For your convenience– I Do Stream offers a laptop rental package that includes an ultra portable laptop with high speed wireless access included for an additional cost.

Standard Webcast Package

Our webcasting package features a maximum of 50 player connections and includes:

- On-demand access for 30-days after the event
- Live chat technical support for your viewers
- Standardized email invitation created with links for you to send to online viewers
- Included wedding guest book and chat service for viewers during the broadcast
- Ability to download the event to your iPod

Optional services available for an additional cost : Ultra-portable laptop rental, telephone technical support for viewers, and additional viewer blocks.
